

Manufacturers and distributors of:

- LED lighting - ultra-efficient
- Induction lighting
- Ropatec – Vertical Axis wind Turbines
- Amtrol - tanks, water systems
- Big Belly - solar compactor
- Cool-n-Save - a/c pre-cooler
- Discover Energy - batteries
- GE-Homespring - water purification
- HBX controls – solar controllers/pumps
- Kill A Watt - electricity use monitors
- Ozone-Lite - air purifying CFL's
- SynergyAire - solar heating/cooling
- Sunda - solar hot water systems
- Taco - pumps & heat exchangers

And many other sustainable products

Who we are:

We are manufacturers and distributors of environmentally friendly, sustainable products and services. **Green & clean** continually searching the planet for the most ingenious, highest quality and economically feasible solutions. And at **green & clean**, our search never ends.

If your seeking better energy efficiency, renewable energy, emission reduction, air or water quality, a **green & clean partner** can provide a solution for you! Our strengths are in our people and partnerships! We don't just "talk the talk". We live it. We are committed to sustainable practices and are very passionate about it. Ask how we can help you with your sustainability goals!

your sustainable solutions partner!

- Ultra-efficient LED lighting
- Induction lighting
- Vertical Axis Wind Turbines
- Indoor air and water quality
- sustainable energy solutions
- energy management
- emission reduction scrubbers
- eco-friendly solutions

Your local Green & Clean partner is:

Solar compactor

DRIVE YOUR AC COST DOWN 30%
\$55 UP TO \$55

EASY INSTALL
ATTACHES IN MINUTES WITH NO TOOLS!

PAYS FOR ITSELF IN WEEKS!

One of the most cost effective and simple ways to save energy - Ed Begley, JR.

If your home has an AC unit, you should own a Cool-n-Save

LED lighting – Ultra efficient

The future of lighting is here! Check out Green & Clean's full line of LED lighting

LED uses 1/10 the energy of traditional lighting, is twice as efficient as CFL's without the toxic mercury and lasts up to 25 times longer. We have an LED lamp for virtually every fixture and application.

The future is now!

Induction lighting

Our Induction lighting has incredible efficiency, reliability and cost-effectiveness. Combined with the best warranty in the business – 10 YEARS!

What are you waiting for?

The BigBelly® Solar Compactor is a patented compacting trash receptacle that is completely self-powered through it's onboard solar power unit. It has 5X the capacity, reduces collections and cuts fuel and greenhouse gases by 80%
Now that's a neat idea!

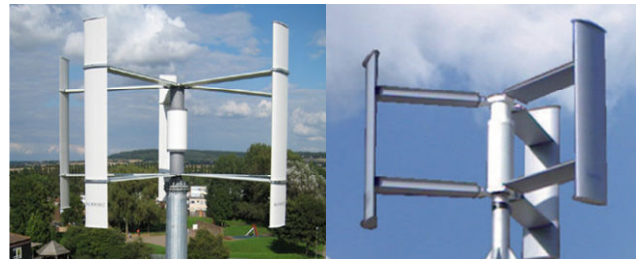

Vertical Axis Wind Turbines

Green & Clean is proud to represent the worlds most successful Vertical Wind Turbine's

Ropatec is the most trusted name in Vertical Axis. VAWT's are the only viable wind solution for urban areas. These turbines are safe, reliable and efficient in all wind speeds as well as being totally silent. Ropatec has been in the wind business since 1997 with over a thousand installations in all climates worldwide.

Green & Clean is bringing wind generation home!

Efficient heating & cooling

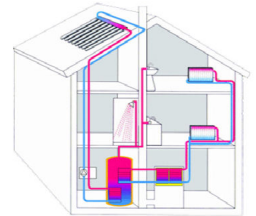

i-see Sensor
UP TO 23 SEER

The most efficient heat pump on the planet today. It's so efficient it can be solar powered or grid powered

Solar hot water systems

Free hot water courtesy of the sun, no matter what the climate!

Indoor air & water quality

Nothing but pure, clean, reliable water throughout the entire home!

Environmentally friendly!

Purifiers
