

## 3KW Ropatec installation – Goulds, Newfoundland

Installation by: **East Coast Renewable Energy Inc.**

**Green & Clean Energy Co.** is the proud representative for Ropatec Vertical Axis Wind Turbines throughout North and South America. These are the most tested, robust and versatile wind systems on the planet today. *The wind is changing...*

**The generator**

**Unpacking the wings/struts**

**Getting ready for assembly**

**Assembled & ready in less than 2 hours**

**Various local media were on-site to cover the event**

**Ready to hoist**

**Ready to connect**

**Quick connection (30 minutes)**

**Making green & clean power**

**Green & Clean Energy Co.** wishes to thank Scott and Sharon Barrett of **East Coast Renewable Energy Inc.** for their incredible hospitality and outstanding professionalism. This is the first official Ropatec installation in Canada and we could not have picked a better partner or location for this historic event.

**JOB WELL DONE!!! Scott can be contacted at:**
